ACCESS CONTROL, SECURITY, T&A AND CCTV

Ideal system for small, medium and large projects. Can work with existing LAN/WAN/WLAN infrastructure. Accommodates all security devices w/Wiegand interface as well as conventional devices w/RS232 interface. Can be integrated with other sub-systems, including Gate Entry Control, Elevator Control, Alarm Monitoring, Photo-ID badging, Time & Attendance, Visitor Management, Parking Control and Asset Tracking.

AMWATCH ACCESS - SOFTWARE

<p>Access Control Software - Provides control of practically any sized building or campus. Can handle a mix of Wiegand and RS232 devices, practically unlimited Access Levels, TCP/IP or RS485 connectivity and a host of standard and options capabilities including Elevator Control, Alarm Monitoring, T&A, CCTV integration, Global Anti-passback, Debit Card Transactions, Multiple workstations, interface with Tele-entry and HTML report wizard.</p>	420-AMW-ACS	Standard: 128 Access Points - 4 workstations	\$399.00
	420-AMW-T&A	Standard + T&A: 128 Access Points - 4 workstations - Time & Attendance Reports	\$699.00
	420-AMW-ACD	Deluxe: Practically unlimited Access Levels - 16 workstations - special features like Elevator Control, Global Group of Relays, Debit Card and Alarm Monitoring	\$999.00
	420-AMW-A&V	Deluxe + CCTV Integration: Practically unlimited Access Levels - 16 workstations - special features like Elevator Control, Global Group of Relays, Debit Card, Alarm Monitoring and integration with Digital Video Recorders (Amtel Specified DVR).	\$1,499.00

XPIP - ACCESS CONTROL PANELS

<p>XPIP Access Control Panel - Advanced, full function, 2 door, Access Control Panel available in 4 different packaging modes: Sub-assembly, Indoor enclosure Outdoor, Pedestal mount enclosure; and Sealed ABS compact-box enclosure. It offers Rs485 or TCP/IP connectivity, 20000+ users, 3000 transaction buffer, supervised inputs, NO/NC relay outputs with ability to accept either RS232 and Wiegand devices on each of its two control ports.</p>	120-XIP-2PAN	XPIP Sub-assembly : Mounting plate with both XPIP main board and power supply ready for mounting in structured cabling system or regular enclosure. No transformer. (Available in pack of 4 only)	\$570.00
	120-XIP-2STN	XPIP - Indoor Enclosure: Complete Access Control Panel in an indoor, locked enclosure with transformer and battery charger.	\$690.00
	120-XIP-2WDN	XPIP-Compact Box: Sealed ABS housing ready with XPIP for door mount or stand-alone applications. No battery backup.	\$690.00
	120-XIP-2OTN	XPIP - Pedestal Mount: Housed in an outdoor enclosure ready for pedestal mount. Front plate can accommodate most Card Readers and regular or VolP intercom station. No battery back-up	\$790.00
	120-XIP-16IO	Input Output Expansion Board: 20 NO/NC Relay Outputs and 8 opto-isolated inputs, for general purpose.	\$490.00
	Comment:	See Appendix to find more options on Legacy panels & accessories.	

XPIP - ELEVATOR CONTROL PANELS

<p>XPIP Elevator Control System - Indoor enclosure that includes XPIP control panel, I/O expansion board, power supply and battery backup to control up to 16 Floors. Can provide elevator control for Visitors by interfacing with PC based system that includes Visitor Tele-Entry Systems. Need one per cab. .</p>	120-XIP-EL16	XPIP Elevator Control - 16: Can control up to 16 floors and handle any card reader or card + code reader in the cab.	\$1,190.00
	120-XIP-EL32	XPIP Elevator Control - 32: Can control up to 32 floors and handle any card reader or card + code reader in the cab.	\$1,690.00

XPIP - TIME & ATTENDANCE TERMINALS

<p>Time & Attendance Terminal - Fingerprint: Sealed enclosure including XPIP control, fingerprint reader with memory capacity of 900 users, MiFare card reader, 4X20 LCD display, NO/NC relay Outputs and Supervised Inputs. Can provide both Attendance verification as well as door control from same unit. Separate unit for registration of fingerprints.</p>	120-XIP-2WDB	T & A Terminal: Control unit with fingerprint reader, LCD display and Mifare smartcard reader including XPIP panel with TCP/IP and RS485 communication with external 12VDC power supply. (Registration unit Required. Not Included)	\$1,490.00
	340-BIO-FPR	Registration Unit: USB connectable unit for fingerprint registration with both Access Control and Time & Attendance software.	\$490.00

ID DEVICES

<p>MIFARE readers & cards - 13.5 MHz smartcard technology ISO 14443A. Readers with serial and wiegand output. ISO cards blank with CSN.</p>	221-MIF-MS	MiFare Reader mullion style, ISO 14443A, Serial/Wiegand output.	\$499.00
	222-MIF-CSN	MiFare Card Blank, ISO printable, Card Serial Number, 1K mem .	\$3.50

Picture	Description	Part No.	Options	MRSP. \$
	AMTEL-INDALA Proximity Readers and Cards - Broad selection of proximity readers and cards in 125 Khz, using the AMTEL proprietary and Secure format of 30 bits for increased security and prevention of duplicated ID numbers. All standard readers come in Onyx color and the read range goes from few inches up to 28" depending the selected model.	221-FLX-MS	Prox reader - Mullion style, up to 5" read range, AMTEL Format.	\$149.00
		221-FLX-WS	Prox reader - Wallswitch style, up to 5" read rng., AMTEL Format.	\$199.00
		221-FLX-MR	Prox reader - Mid range, up to 12" read range. AMTEL Format.	\$449.00
		221-FLX-KP	Prox reader & Keypad, up to 5" read range. AMTEL Format.	\$499.00
		221-FLX-LR	Prox reader - Long range, up to 28" read range. AMTEL Format.	\$995.00
		222-FLX-C30	Prox card - Current FC & sequence. Min. 100. AMTEL Format.	\$3.00
		222-FLX-S30	Prox card - Special FC & Sequence. Min. 100. AMTEL Format.	\$3.60
		222-FLX-ISO	Prox card - ISO printable, Min. order 100. AMTEL 30 bits format.	\$5.90
		222-FLX-KTAG	Prox Keytag - Key ring style. Min. Order 100. AMTEL format.	\$6.30
	HID-iCLASS Smartcard readers and cards - Smartcard technology at 13.5 Mhz. Variety of readers and ID credentials. Cards with different memory size using the AMTEL Secure format of 30 bits for increased security. Readers are black color and several models are available including readers with keypad, LCD, and biometric reader.	221-ICL-STD	Smart Reader - Small style. Black. Up to 2" read range.	\$129.00
		221-ICL-WS	Smart Reader - Wallswitch style. Black. Up to 2" read range	\$249.00
		221-ICL-RKP	Smart Reader + Keypad - Wall mounitng . Black.	\$499.00
		221-ICL-LCD	Smart Reader + Keypad & LCD. Wall mounting. Black.	\$798.00
		221-ICL-BIO	Biometric Fingerprint & Smart Reader with Keypad & LCD.	\$1,190.00
		222-ICL-2K	Smartcard 2K memory, ISO printable, AMTEL Format.	\$4.48
		222-ICL-16K	Smartcard 16K memory, ISO printable, AMTEL Format.	\$7.70
	HID-PROX Proximity readers and cards - Many popular choices of readers and ID credentials with 125 Khz Technology. Cards using open Wiegand standard of 26 bits format. Readers are grey color and several models are available including readers with keypad and long read range.	221-HID-PNT	Prox reader point model, up to 3" read range, grey.	\$129.00
		221-HID-WS	Prox reader wall Switch model, up to 4" read range, grey.	\$299.00
		221-HID-PKPD	Prox reader & Keypad, up to 8" read range, grey.	\$499.00
		222-HID-C26	Prox card 26 bits wiegand format, current FC & seq. Min 100.	\$3.00
		222-HID-S26	Prox card 26 bits wiegand format, special FC & seq. Min 100.	\$3.60
		222-HID-ISO	Prox card ISO printable, format W26 bits. Min 100.	\$5.90
		222-HID-KTAG	Prox Keytag, keyring model, format W26 bits.	\$5.90
		Comment:	See the Appendix to find more options on ID Devices & Accessories.	
DIGITAL VIDEO RECORDERS FOR CCTV INTEGRATION				
	Digital Video Recorders & Video Streamers - Available for Integration with Access Control, Guard-Gate, Visitor Control & Parking Systems. Options for 4, 8 and 16 video channels with 60 or 120 images per second ips (special order for 240 & 480).	340-DVR-46016	DVR 4 Channels of Video, 60ips, 1Chanel Audio, 160GB	\$1,825.00
		340-DVR-812016	DVR 8 Channels of Video, 120ips, 1Chanel Audio, 160GB	\$2,750.00
		340-DVR-1612016	DVR 16 Channels of Video, 120ips, 1Chanel Audio, 160GB	\$3,083.00
		340-NVS-1IP	NVS 1 Channel Network Video Streamer w/30ips, 1Ch Audio, D1	\$825.00
		340-NVS-4IP	NVS 4 Channel Network Video Streamer w/30ips, 1Ch Audio, D1	\$1,325.00
STARTER SYSTEMS				
	AMWATCH Starter Systems: System including Access Control Standard Software for more than 120 readers and up to 4 workstations, one XPIP control panel with TCP/IP or RS485 communication protocol, two readers (proximity or smartprox) and twenty cards (prox or smart cards). This system can be expanded by adding more panels, readers and cards as required.	400-AWA-PR2	Access Control Prox System: Includes Access Control Standard Software, XPIP control panel, 2 Prox readers & 20 Prox cards. Includes: 1 420-AMW-ACS, 1 120-XIP-2STN, 2 221-FLX-MS, 20 222-FLX-C30	\$1,048.00
		400-AWA-ICL	Access Control i-Class System: Includes Access Control Standard Software, XPIP control panel, 2 i-Class readers & 20 i-Class cards. Includes: 1 420-AMW-ACS, 1 120-XIP-2STN, 2 221-ICL-STD, 20 222-ICL-2K	\$1,038.00
		400-AWA-T&A	Time & Attendance System: Including Access and T&A Soffware, two T&A Terminal with fingerprint, one fingerprint registration unit, 20 Mifare cards. Includes: 1 420-AMW-T&A, 2 120-XIP-2WDB, 1 340-BIO-FPR, 20 222-MIF-CSN	\$3,540.00

Picture	Description	Part No.	Options	MRSF. \$
VISITOR SCREENING SYSTEMS - MANNED & UN-MANNED				
Amtel Lobby Visitor Screening System can accommodate the needs of a small facility or a complete campus of buildings w/one central database. In addition, Amtel offers Telephone Entry Systems for un-attended locations and "Virtual" Control Stations for Remote Management of Visitors.				
AMWATCH VISITOR - SOFTWARE				
	Lobby Visitor Screening Software (LVSS) - Allows screening, registration, pre-authorization and history reports of visitors for application in commercial or residential buildings. Interfaces to terminal video for taking visitor and ID document pictures and prints visitor badges. Special features allows networked stations, entry/exit control, integrated DVR, business card scanner.	420-AMW-VLS	Visitor Standalone Software: Provides full Visitor authorization check, pre-authorization over e-mail, history reports, printing temporary badges and exit check. Price is for license per work-station.	\$999.00
		420-AMW-VLN	Visitor Network Software: Provides visitor authorization check, pre-authorization over e-mail, history reports, badge printing, exit check; plus special features for networked stations, DVR integration, entry/exit control, business card scanner and optional driver license reader.	Call Factory
VIDEO DEVICES & ID ACCESSORIES				
	Lobby Visitor Screening Unit (LVSU) - Simple Mirror that makes it extremely simple for any visitor to use. Two embedded cameras to record both face and ID card in one sequence.	340-LB-USB	Visitor Screening Unit-USB: Visitor simply looks in the mirror and unit takes a photo of visitor as well as the ID card. Includes 2 USB cameras.	\$690.00
		340-LB-BNC	Visitor Screening Unit-BNC: Visitor simply looks in the mirror and unit takes a photo of visitor as well as the ID card. Includes 2 BNC cameras.	\$790.00
	Lobby Visitor System Accesories - Readers, scanners, badges and some key accessories. Many more accessories are available on special order basis.	340-BC-GUN	Bar Code Handheld Scanner (CCD).	\$199.00
		340-MS-DL	Magnetic Stripe Reader for Driver License.	\$249.00
		340-OCR-CS	Business Card scanner compatible with visitor systems.	\$199.00
		228-BDG-BH	Badge Holder in clear vinyl with clip; pack x 50	\$49.00
		228-BDG-LB	Paper Badges for Visitor Screening System. In 500 pack	\$40.00
VISITOR MANAGEMENT - STARTER SYSTEMS				
	AMWATCH Lobby Visitor System: Standard system to keep visitor history, handle pre-approval and issue a temporary photo-id visitor badge; including Software, Visitor Screening unit, exit bar code gun, paper badge inserts and re-usable visitor pouches.	400-AWV-LV1	Lobby Visitor System: including Software License, dual USB camera Visitor Screening Terminal, 500 paper badge inserts, 50 re-usable visitor pouches & exit bar code gun. Includes: 1 420-AMW-VLS, 1 340-LB-USB, 1 340-BC-GUN, 1 228-BDG-BH, 1 228-BDG-LB	\$1,779.00
		400-AWV-LV2	Lobby Visitor System: including two Software Licenses, two dual BNC camera Visitor Screening Terminal, one 4-Chanel DVR, 500 paper badge inserts, 50 re-usable pouches & exit barcode gun. Includes: 1 420-AMW-VLN, 2 340-LB-BNC, 1 340-DVR-46016, 2 340-BC-GUN, 2 228-BDG-BH, 2 228-BDG-LB	Call Factory
XPIP - TELEPHONE ENTRY SYSTEMS				
	XPIP Tele-Entry Control System: Provides full communication and control from any remote door or gate. Includes a 4X20 large LCD display w/instructions in up to two language, unique two step dialout operation, private entry codes for residents and integration with Access Control System on a TCP/IP infrastructure or Modem communication. Can provide elevator control for visitors also.	150-XIP-1NNN	Tele Entry 50 - w/memory for 50 Residents & 100 Key codes	\$990.00
		150-XIP-2NNN	Tele Entry 100 - w/memory for 100 Residents & 200 Key codes	\$1,090.00
		150-XIP-3NNN	Tele Entry 250 - w/memory for 250 Residents & 500 Key codes	\$1,190.00
		150-XIP-4NNN	Tele Entry 500 - w/memory for 500 Residents & 1000 Key codes	\$1,290.00
		150-XIP-5NNN	Tele Entry 1000 - w/mem. for 1000 Resid. & 2000 Key codes	\$1,390.00
		150-XIP-5RNN	Tele Entry 1000 Prox - w/mem. for 1000 Resid. & 2000 Key codes with prox reader included.	\$1,690.00
		150-XIP-5RVN	Tele Entry 1000 Prox & Video - w/mem. for 1000 Resid. & 2000 Key codes with prox reader and camera included.	\$1,990.00
		Comment:	See the Appendix to find more options on Video Devices & Access.

GUARD GATE ENTRY CONTROL SYSTEMS FOR RESIDENTS AND VISITORS				
Complete and integrated soln. for any manned Gate Entrance. Includes systems for Resident Entry Control using RFID, Visitor Entry Control w/drivers license scan, CCTV surveillance of all activity and Remote Web-access for residents as well as mgmt. Can be expanded to handle multiple manned & unmanned entrances in a				
AMWATCH GATE & GUARDHOUSE - SOFTWARE				
	Resident Entry Control Software - Provides all functions required for RFID based Access Control in Resident Entry lane.	420-AMW-GEC	Resident Entry Control Software for pedestrian and vehicular access control, compatible with RFID Controllers.	\$499.00
	Guardhouse Visitor Screening Software (GHVSS) - Software for control of Guard-Gate entrances at residential communities, providing visitor database, visitor and vehicle registration, printed Gate Passes generation with address directions and history reports. Visitor's preauthorization manually or by using a voice mail option.	420-AMW-VGS	Guardhouse Visitor Screening Software: Scans Visitor Drivers License, works w/touch screen or regular display, prints gate pass, allows for authorizations over e-mail and direct entry, history checks and reports and many other capabilities.	\$2,490.00
		420-AMW-VOX	Voice mail software module: Allows resident to dial a number and leave a message related to expected guests. System automatically alerts guard and purges messages as needed.	\$990.00
RFID CONTROLLERS, READERS & TAGS				
	RFID Controller - Directional with RFID reader, patch antenna and LED indicators in a fiberglass outdoor enclosure with universal mounting option. Master unit includes XPIP control panel with TCP/IP and RS485 communication ports, while slave units could be connected to a master panel using RS232. RFID Controller - Omnidirectional with RFID reader, whip antenna and LED indicators in a ABS enclosure. Master unit includes XPIP control panel with TCP/IP & RS485 ports, while slave units could be connected to a master panel using RS232.	130-RFI-MLN	RFID Master Controller with RFID reader, directional antenna, LED indicators, XPIP Panel with power supply & transf 110VAC.	\$1,690.00
		130-RFI-SLN	RFID Slave Controller with RFID reader, directional antenna and LED indicators to connect to a Master Controller using RS-232.	\$990.00
		140-RFI-MLN	RFID Omni Master Controller includes XPIP Control Panel & RFID reader with whip antenna in a compact ABS box.	\$990.00
		140-RFI-SLN	RFID Omni Slave Controller with RFID reader, whip antenna and LED indicators to connect to a Master Controller using RS-232.	\$490.00
	AMTEL RFID Active Readers - UHF Technology (433 Mz) readers of active tags for Automatic Vehicle Identification (AVI) and Asset ID with adjustable read range from 10' to 100' with different antenna models and RS232 communication output.	260-RFI-SO	RFID Reader - Whip omnidirectional connector for UHF antenna, adjustable read range up to 100 feet and serial output RS-232.	\$270.00
	AMTEL RFID Active Tags - Two models available one for non-metal and one for metal surfaces, with lithium battery.	261-RFI-SN	RFID active tag - standard for non metal surfaces. Credit card size.	\$19.90
		261-RFI-MN	RFID active tag - metal surfaces.	\$29.90
	Accessories for RFID readers and tags - available for various antenna & mounting options.	262-RFI-OAN	Omnidirectional antenna , Whip style, RFID reader	\$30.00
		262-RFI-WH	Plastic Windshield holder for Standard tags with Epoxy backing	\$3.98
		262-RFI-DST	Double Sided Tape kit , semipermanent, for standard tags	\$0.98
		262-RFI-VT	Velcro Tape kit for standard RFID tags	\$0.98
	AMTEL RFID Receivers & Clickers for Remote Gate Operations with Weigand output format	231-RF2-WGN	RF Receiver with Wiegand output	\$250.00
		232-RF2-2B	RF Clickers for key ring - two buttons, individually coded	\$24.00
		232-RF2-PRX	Dual Tec Clickers RF+PROX for key ring - two buttons, individually coded	\$30.00
		Comment:	See the Appendix to find more options on ID Devices & Accessories.	
CONTROL PANELS & ENTRY/EXIT VERIFIERS & PEDESTALS				
	XPIP - Exit Verifier - Consisting of XPIP control board with TCP/IP & RS485, four lines LCD for use as visitor & resident exit/entry verification. Could be mounted on the wall or in a pedestal. Options include omnidirectional bar code scanner, proximity reader, Intercom and CCTV camera.	160-XIP-NRNN	XPIP - Exit Verifier + Reader with control panel and LCD in outdoor cabinet.	\$1,290.00
		160-XIP-BNNN	XPIP - Exit Verifier + Scanner with control panel and LCD in outdoor cabinet.	\$2,390.00
		160-XIP-BRNN	XPIP - Exit Verifier + Reader & Scanner with control panel and LCD in outdoor cabinet.	\$2,590.00
		160-XIP-BRIN	XPIP - Exit Verifier + Reader, Scanner & Intercom with control panel and LCD in outdoor cabinet.	\$2,790.00
		160-XIP-BRJN	XPIP - Access Verifier + Reader, Scanner & VoIP Intercom with control panel and LCD in outdoor cabinet.	\$2,990.00

Picture	Description	Part No.	Options	MRSP. \$
	Pedestals & Cabinets - Amtel offers a full range of pedestals to meet the needs of vehicular traffic with passenger vehicles, truck type vehicles or a mix of both. They are available with coupling plates that will allow mounting of larger control devices like Tele Entry systems.	825-PED-S4	Pedestal 42" high in steel, black.	\$149.00
		825-PED-S4	Pedestal 71" high in steel, black.	\$179.00
		825-PED-S4	Double high pedestal 42" & 71" in steel, black.	\$219.00
		825-PED-LR	Lexan mounting plate for proximity reader	\$19.00
		825-PED-MA	Steel mounting-A Universal plate mount adapter for Tele-entry	\$49.00
		815-CAB-SS	Outdoor Cabinet Stainless Steel Front & Black Bac box	\$99.00
BARRIER GATES & ACCESSORIES				
	AMGATE - Barrier Gate for heavy duty use with universal logic control for automatic operation, robust electromechanical motor-reducer & crank mechanism. Shell-in-a-shell design in white color (special order for other colors). Optional loop detector and selection of arm of 12' & 14' or articulated arms.	502-BG-NNW	Automatic Barrier Gate , with universal logic box, strong electromechanical motor-reducer & crank mechanism. White.	\$1,740.00
		502-BG-ALW	Automatic Barrier Gate + Loop Detector and 12' Arm , with universal logic box, strong electromechanical mechanism. White.	\$1,990.00
		509-BG-12	Gate Arm -12' with Reflectorized Tape.	\$108.00
		509-BG-14CWT	Gate Arm -14' includes Counter Weights.	\$192.00
		508-BG-ART	Gate Arm - Articulated (for low overhead operations)	\$348.00
	Vehicle Loop Detector - Inductive digital detection using ground loop.	504-VLD-1	Digital Vehicle Loop Detector, self tuning, 110VAC.	\$228.00
		504-VLD-H	Harness for Digital Vehicle Loop Detector.	\$28.00
		Comment:	Please call for information on additional available barrier gates.

VIRTUAL GUARD ENTRY CONTROL SYSTEMS				
Since Guard costs now exceeds \$100,000 per year, more and more communities are looking at "Virtual" control stations that can save as much as 80% of the cost without sacrificing security at any gate entrance. Amtel offers a "Virtual" Control station for Entry and Exit lanes along with the Software for the Remote Virtual Control				
AMWATCH.NET VIRTUAL GUARD SOFTWARE				
	Virtual Control Software for central Guard Station, with capacity for remote handling of one resident entry lane, one resident exit lane, one visitor entry lane and one visitor exit lane. DVR Integration, VoIP Intercom and compatible with RFID residents gate entry control systems.	425-AMW-VCC	Virtual Control Software for central Guard Station, with capacity for remote handling of one resident entry lane, one resident exit lane, one visitor entry lane and one visitor exit lane.	\$4,990.00
		425-AMW-EXP	Expansion software module per additional entrance manned or unmanned.	\$990.00
VIRTUAL GUARD & ENTRY LANE CONTROLLER				
	Virtual Guard Entry Tower - Complete System that provides foolproof visitor screening; includes XPIP panel with TCP/IP & RS485 communication, LCD display, VoIP Intercom, Visitor Pass printer & dispenser and optional Magnetic Stripe reader for Drivers License and Camera for taking visitor picture at entry. All housed in a compact and strong metal and fiberglass tower.	570-XIP-DJNN	Virtual Guard Tower + VoIP Intercom with visitor pass dipenser and entry lane controller.	\$6,290.00
		570-XIP-DJNV	Virtual Guard Tower + VoIP Intercom & Camera with visitor pass dipenser and entry lane controller.	\$6,590.00
		570-XIP-DJMN	Virtual Guard Tower + VoIP Intercom & Magstripe Reader with visitor pass dipenser and entry lane controller.	\$6,590.00
		570-XIP-DJMV	Virtual Guard Tower + VoIP Intercom + Magstripe Reader & Camera with visitor pass dipenser and entry lane controller.	\$6,890.00
	Gate Pass - Custom Print Option also Available.	532-TKT-82BCN	Tickets roll paper 82MM wide for printing up to 2,000 Gate Passes	\$27.00
VIRTUAL GUARD & EXIT LANE CONTROLLER				
	Virtual Guard Entry Tower - Complete System that provides visitor exit control; includes XPIP panel with TCP/IP & RS485 communication, LCD display, VoIP Intercom, Visitor Pass printer & dispenser and optional Magnetic Stripe reader and Camera for taking visitor picture at exit. All housed in a compact and strong metal and fiberglass tower.	580-XIP-DJNN	Virtual Guard Tower + VoIP Intercom with visitor pass dipenser and entry lane controller.	\$6,290.00
		580-XIP-DJNV	Virtual Guard Tower + VoIP Intercom & Camera with visitor pass dipenser and entry lane controller.	\$6,590.00
		580-XIP-DJMN	Virtual Guard Tower + VoIP Intercom & Magstripe Reader with visitor pass dipenser and entry lane controller.	\$6,590.00
		580-XIP-DJMV	Virtual Guard Tower + VoIP Intercom + Magstripe Reader & Camera with visitor pass dipenser and entry lane controller.	\$6,890.00
RFID CONTROLLERS, READERS & TAGS FOR RESIDENT LANE CONTROL				
	RFID Controller - Directional with RFID reader, patch antenna and LED indicators in a fiberglass outdoor enclosure with universal mounting option. Master unit includes XPIP control panel with TCP/IP and RS485 communication ports, while slave units could be connected to a master panel using RS232.	130-RFI-MLN	RFID Master Controller with RFID reader, directional antenna, LED indicators, XPIP Panel with power supply & transf 110VAC.	\$1,690.00
		130-RFI-SLN	RFID Slave Controller with RFID reader, directional antenna and LED indicators to connect to a Master Controller using RS-232.	\$990.00
	AMTEL RFID Active Tags - Two models available one for for non-metal and one for metal surfaces, with lithium battery.	261-RFI-SN	RFID active tag - standard for non metal surfaces. Credit card size.	\$19.90
		261-RFI-MN	RFID active tag - metal surfaces.	\$29.90
	Accessories for RFID readers and tags - available for various antenna & mounting options.	262-RFI-WH	Plastic Windshield holder for Standard tags with Epoxy backing	\$3.98
		262-RFI-DST	Double Sided Tape kit , semipermanent, for RFID tags	\$0.98
		262-RFI-VT	Velcro Tape kit for RFID tags	\$0.98
DIGITAL VIDEO RECORDERS FOR CCTV INTEGRATION				
	Digital Video Recorders for Integration with Virtual Guard Gate Control Systems. Options for 4 and 8 video channels with 60 or 12 ips	340-DVR-46016	DVR 4 Channels Video , 60ips, 1Channel Audio, 160GB	\$1,825.00
		340-DVR-812016	DVR 8 Channels Video , 1Channel Audio, 120ips, 160GB	\$2,750.00
BARRIER GATES & ACCESSORIES				
	AMGATE - Barrier Gate for heavy duty use with universal logic control for automatic operation, robust electromechanical motor-reducer & crank mechanism. Shell-in-a-shell design in white color (special order for other colors). Optional loop detector and selection of	502-BG-NNW	Automatic Barrier Gate , with universal logic box, strong electromechanical motor-reducer & crank mechanism. White.	\$1,740.00
		502-BG-ALW	Automatic Barrier Gate + Loop Detector and 12' Arm , with universal logic box, strong electromechanical mechanism. White.	\$1,990.00
		509-BG-12	12ft Gate Arm , white wooden pine & reflectorized tape.	\$108.00
		509-BG-14CWT	14ft Gate Arm , white wooden pine, reflect. tape & counterweight.	\$192.00
		508-BG-ART	Articulated Gate Arm for low overhead operations, wooden pine.	\$348.00
	Vehicle Loop Detector - Inductive digital detection using ground loop.	504-VLD-1	Digital Vehicle Loop Detector, self tuning, 110VAC.	\$228.00
		504-VLD-H	Harness for Digital Vehicle Loop Detector.	\$28.00
		Comment:	Please call for information on additional available barrier gates.	
STARTER SYSTEMS				
	Virtual Gate-Entry System: Provides all the equipment needed for a "Virtual" gate entrance with 2 entry lanes and 1 or 2 exit lanes. System includes the "Virtual"	400-AVG-2/1NN	Virtual Gate Entry System for vistor and residents entry control & free exit including a VCC Software one Virtual Gate Entry for visitors lane, one RFID Master controller for resident entry lane, vehicle loop detector for common free exit & 5 tags.	\$12,153.00

Picture	Description	Part No.	Options	MRSP. \$
	Entry Control Tower for the Visitor Entry lane, RFID controller for Resident Entry lane, Software for control of both resident entry lanes as well as Visitor Entry lanes from a Remote Command and control center and Optional Exit Control of Visitors and Resident lanes. Barrier	400-AVG-2/2MV	Includes: 1 425-AMW-VCC , 1 570-XIP-DJNN, 1 130-RFI-MLN, 5 261-RFI-SN, 2 504-VLD-1, 2504-VLD-H 1 532-TKT-82BCN Virtual Gate Entry System for visitor and residents entry & exit control including a VCC Software one Virtual Gate Entry and one Virtual Guard Exit for visitor lanes with mag stripe readers; one RFID Master controller and one RFID Slave controller for resident lanes; two vehicle arming loop detectors & 5 tags, 4-Ch DVR & 1 Ticket Roll.	\$23,914.00

Picture	Description	Part No.	Options	MRSF. \$
	Gates Not Included in the package.		Includes: 1 425-AMW-VCC , 1 570-XIP-DJMV, 1 580-XIP-DJMV, 1 130-RFI-MLN, 1 130-RFI-SLN, 5 261-RFI-SN, 2 504-VLD-1, 2 504-VLD-H, 1 340-DVR-46016 1 532-TKT-82BCN	
PARKING AND REVENUE CONTROL SYSTEMS				
AMPARK PARKING AND REVENUE CONTROL SOFTWARE				
	AMPARK Parking & Revenue Control - The Manager Software includes system configuration funtions, database for card access control and support of one entry and one exit lanes, providing flexible fee structure, multiple discounts, on-line monitoring and optional expansion to control up to 16 entry lanes and 16 exit anes. The cashiers module provides payment collection, cash reports and exit authorization with Exit or Central Cashier.	531-APK	Parking & Revenue Control Manager Software License to support one entry lane and one exit lane. Multiple discounts definition, on-line monitoring and network operation.	\$999.00
		531-EXP	Parking Software expansion module required for each additional entry or exit lane.	\$399.00
PARKING VIDEO CHECK AND INTERCOM				
	Video Check Software module for capturing one or two pictures at the time of issue a ticket and check that picture(s) at the Cashier Station.	531-VID-CHK	Parking Software module for Video check for capturing one or two pictures at the time of issue a ticket and check that picture at the PC cashier .	\$1,999.00
		340-DVR-46016	DVR 4 Channels of Video, 60ips, 1Chanel Audio, 160GB	\$1,825.00
	Master Intercoms Wires connection to 3 or 10 Remote Intercoms.	515-REM-3	Master Intercom Station - 3 Channels	\$399.00
		515-REM-10	Master Intercom Station - 10 Channels	\$499.00
PAYMENT STATIONS & FEE DISPLAYS				
	AMPARK Cashier Station with Software license and PC with touch screen fee computer, bar code hand-held scanner, cash drawer & bar code receipt printer. Can handle optional desktop or outdoor fee display.	522-APK-TBCPN	Central Cashier Station including touch screen Fee Computer, bar code handheld scanner, cash drawer and receipt printer.	\$4,790.00
		522-APK-TBCPX	Exit Cashier Station including touch screen Fee Computer, bar code handheld, cash drawer, receipt printer and exit control panel.	\$5,490.00
	Outdoor Fee Display - Two lines, 2.4" high letter, in cabinet easy to mount and shaded from washout by direct sunlight. Programmable message.	523-DD-20FNN	Outdoor Fee Display - Two lines of 2.4" High letter size programable message.	\$690.00
	Desk Top Fee Display - 1/2" High letter size.	523-DD-05NNN	Desk Top Fee Display - 1/2" High letter size.	\$449.00
TICKET DISPENSERS & ACCESSORIES				
	AUTOSCAN Ticket Dispenser & Entry Lane controller: All you need for most Entry Lanes in Parking. Issues bar coded ticket, connects directly to existing LAN / WAN / WLAN infrastructure, has 4line LCD display, has Interlocks, offers suck-back/automatic reset and provides inputs for capacity control and traffic statistics. Can accomodate card reader, intercom,	530-XIP-TDNNN	AUOTSCAN Ticket Dispenser with entry lane controller.	\$5,990.00
		530-XIP-TDRNN	AUOTSCAN Ticket Dispenser + Prox Reader with entry lane controller.	\$6,290.00
		530-XIP-TDNIN	AUOTSCAN Ticket Dispenser + Intercom with entry lane controller.	\$6,290.00
		530-XIP-TDRIN	AUOTSCAN Ticket Dispenser + Reader & Intercom with entry lane controller.	\$6,590.00
		530-XIP-TDRIV	AUOTSCAN Ticket Dispenser + Reader, Intercom & Camera with entry lane controller.	\$6,890.00
	Outdoor Lot Full Display - Two line alpha-numeric display can show one line w/5" high letters or two lines w/2.4" high letters with excellent readability in outdoor sunny conditions from up to 100 feet.	523-DD-20LNN	Outdoor Lot full Sign controlled by the ticket dispenser (pedestal not included)	\$690.00
	Tickets - Custom Print Option also Available.	532-TKT-60BCN	Tickets roll paper 60MM wide for printing up to 2,000 tickets	\$21.00
EXIT VERIFIERS & ACCESSORIES				
	XPIP Exit Panel with TCP/IP & RS485 comm ports, two reader ports RS232/Wiegand, power supply & trafo, in a Outdoor resistant enclosure. Available with prox reader and optional Intercom.	120-XIP-QTRN	XPIP - Pedestal Mount + Reader: Panel housed in an outdoor enclosure ready for pedestal mount. No battery back-up	\$990.00
		120-XIP-QTRI	XPIP - Pedestal Mount + Reader & Intercom: Panel housed in an outdoor enclosure ready for pedestal mount. No battery back-up	\$1,190.00
	AUTOSCAN Exit Verifier & Lane control: Provided with XPIP lane control panel, LCD, barcode scanner, high resistant outdoor tower for verification of the parking receipt and opening control of the exit lane.	540-XIP-TDNNN	AUOTSCAN Exit Verifier with bar code scanner and exit lane controller.	\$3,990.00
		540-XIP-TDNIN	AUOTSCAN Exit Verifier + Intercom with bar code scanner and exit lane controller.	\$4,290.00
		540-XIP-TDRNN	AUOTSCAN Exit Verifier + Prox Reader with bar code scanner and exit lane controller.	\$4,290.00
		540-XIP-TDRIN	AUOTSCAN Exit Verifier + Prox Reader & Intercom with bar code scanner and exit lane controller.	\$4,590.00
		540-XIP-TDRIV	AUOTSCAN Exit Verifier + Prox Reader, Intercom & Camera with bar code scanner and exit lane controller.	\$4,890.00
BARRIER GATES & ACCESSORIES				

Picture	Description	Part No.	Options	MRS.P. \$
	AMGATE - Barrier Gate for heavy duty use with universal logic control for automatic operation, robust electromechanical motor-reducer & crank mechanism. Shell-in-a-shell design in white color (special order for other colors). Optional loop detector and wood arm included or selection of 12' & 14' or articulated arms.	502-BG-NNW	Automatic Barrier Gate, with universal logic box, strong electromechanical motor-reducer & crank mechanism. White.	\$1,740.00
		502-BG-ALW	Automatic Barrier Gate + Loop Detector and 12' Arm, with universal logic box, strong electromechanical mechanism. White.	\$1,990.00
		509-BG-12	Gate Arm -12' with ReflectORIZED Tape.	\$108.00
		509-BG-14CWT	Gate Arm -14' includes Counter Weights.	\$192.00
		508-BG-ART	Gate Arm - Articulated (for low overhead operations)	\$348.00
	Vehicle Loop Detector - Inductive digital detection using ground loop.	504-VLD-1	Digital Vehicle Loop Detector, self tuning, 110VAC.	\$228.00
		504-VLD-H	Harness for Digital Vehicle Loop Detector.	\$28.00
		Comment:	Please call for information on additional available barrier gates.	
PARKING STARTER SYSTEMS				
	AMPARK Parking Revenue Control Systems 1 In / 1 Out w/Exit Cashier: Parking System for control of one entry lane and one exit lane in a parking lot for transient parkers. Entry lane includes automatic ticket dispenser & paper ticket roll (barrier gate & closing loop detector by others). Exit lane includes lane controller and exit fee computer (barrier gate and closing loop detector by others). The AMPARK manager software support communication IP or RS485 with the Ticket Dispenser and the Touch Screen Fee Computer.	500-AMP-B1/1ETR	Parking System w/Exit Touch Screen Cashier & reader for one entry lane and one exit lane, including Autoscan ticket dispenser with proximity reader and paper ticket roll, exit cashier station with touch screen fee computer and exit lane panel with proximity reader.	\$13,090.00
		500-PKBC-1/1CTR	Parking System w/Central Touch Screen Cashier & reader for one entry lane and one exit lane, including Autoscan Ticket Dispenser with paper ticket roll, Autoscan Exit Verifier and Central cashier station.	\$17,090.00

Picture	Description	Part No.	Options	MRSP. \$
	Fee Computer.		Includes: 1 531-APK , 1 530-XIP-TDRNN, 1540-XIP-TDNIN, 1 532-TKT-60BCN, 1 522-APK-TBCPX	
AMWATCH RFID TRACKING SYSTEMS				
ASSET TRACKING & MONITORING SOFTWARE				
	AMWATCH Asset - Software for Tracking & Monitoring RFID tagged assets allowing control of entry & exit as well as presence verification to generate alarms if any asset is missing or take out without proper authorization. Optional checking of card + tag at the control point for tracking or access control.	420-AMW-AT1	AMWATCH Asset software for exit/entry tracking of RFID tagged assets, one parameter.	\$990.00
		420-AMW-AT2	AMWATCH Asset software for exit/entry tracking of RFID tagged assets and cross check of users, two parameters.	\$1,690.00
		420-AMW-ATM	AMWATCH Asset software for exit/entry tracking of RFID tagged assets.	\$1,990.00
RFID CONTROLLERS, READERS & TAGS				
	RFID Controller - Omnidirectional with RFID reader, whip antenna and LED indicators in a ABS enclosure. Master unit includes XPIP control panel with TCP/IP & RS485 ports, while slave units could be connected to a master panel using RS232.	140-RFI-MLN	RFID Omni Master Controller includes XPIP Control Panel & RFID reader with whip antenna in a compact ABS box.	\$990.00
		140-RFI-SLN	RFID Omni Slave Controller with RFID reader, whip antenna and LED indicators to connect to a Master Controller using RS-232.	\$490.00
	AMTEL RFID Active Readers - UHF Technology (433 Mz) readers of active tags for Automatic Vehicle Identification (AVI) and Asset ID with adjustable read range from 10' to 100' with different antenna models and RS232 communication output.	260-RFI-SO	RFID Reader - Whip omnidirectional connector for UHF antenna, adjustable read range up to 100 feet and serial output RS-232.	\$270.00
	AMTEL RFID Active Tags - Two models available one for non-metal and one	261-RFI-SN	RFID active tag - standard for non metal surfaces. Credit card size.	\$19.90
		261-RFI-MN	RFID active tag - metal surfaces.	\$29.90
	Accessories for RFID readers and tags - available for various antenna & mounting options.	262-RFI-OAN	Omnidirectional antenna, Whip style, RFID reader	\$30.00
		262-RFI-WH	Plastic Windshield holder for Standard tags with Epoxy backing	\$3.98
		262-RFI-DST	Double Sided Tape kit, semipermanent, for standard tags	\$0.98
		262-RFI-VT	Velcro Tape kit for standard RFID tags	\$0.98
		231-RF2-WGN	RF Receiver with Wiegand output	\$250.00
		232-RF2-2B	RF Clickers for key ring - two buttons, individually coded	\$24.00
STARTER SYSTEMS				
	AMWATCH Asset - RFID - Amtel provides several pre-engineered systems for Asset Tracking and Monitoring, starting with a simple asset tracking system that records all vehicles coming and going by the reader, to a 2 parameter system that checks the combination of asset with carrier to a fleet management system where multiple readers on each side of the lane track all the tags that pass by in the lane, including flat-bed trucks with multiple assets on it.	400-AMT-RF1	Asset Tracking System -One Parameter for exit control of assets using RFID tags, including software, RFID master Controller and five RFID tags. Includes: 1 420-AMW-AT1 , 1 , 5 261-RFI-SN	\$1,090.00
		400-AMT-RF2	Asset Tracking System -Two Parameters for exit control of assets using RFID tags, including software, RFID master Controller and five RFID tags, prox readers and 5 prox cards Includes: 1 420-AMW-AT2 , 1 , 1 221-FLX-MS, 5 222-FLX-C30, 5 261-RFI-SN	\$1,954.00
		400-AMT-RFT	Fleet Tracking System: Includes two sets of RFID Master/Slave controllers, 10 Metal tags & software for installation on both sides of a wide traffic lane where large trucks with metal asset tags are tracked for both presense and direction of movement.	\$7,267.00

Picture	Description	Part No.	Options	MRSP. \$
			Includes: 2 130-RFI-MLN , 2 130-RFI-SLN, 1 420-AMW-ATM , 10 261-RFI-MN	
APPENDIX				
LEGACY ACCESS CONTROL SOFTWARE				
	Access Control Software ver. 7.61 compatible with Voidex panels (V1300, V2300, V4000) RS232&485	342-AMW	Access Control Software version 7.61 compatible with Voidex panels. Includes one year e-mail tech support only.	\$390.00
	Access Control Software version 8.4.X compatible with Voidex panels (V1300, V2300, V4000) RS-485 and expanded database.	342-AMW-8	Access Control Software version 8.4.X compatible with Voidex panels. Includes one year e-mail tech support only.	\$490.00
LEGACY CONTROL PANELS				
	V4000 - Access Control Panel: Voidex family 4-reader wiegand ports panel with RS485 communication, 4000 users memory, DC power supply, 16.5 VAC transformer & optional cabinet with key lock.	311-4K-485	V4000- Access Control Panel -RS485 with DC power supply, 16.5 VAC transformer & cabinet with key lock. Firmware 5_20.HEX	\$1,150.00
		311-4K-CLC	V4000- Access Control Panel -RS485- No Cabinet with DC power supply & cabinet with lock. No transformer. Firmware v5_20.HEX	\$990.00
		311-4K-232	V4000- Access Control Panel -RS232 with DC power supply, 16.5 VAC transformer & cabinet with key lock. Firmware vX_XX	\$1,150.00
	V1300 - Access & Parking Control Panel: Voidex 1-reader wiegand port, provided with RS485 communication, 20,000 users memory, enclosure and transformer for access control or parking lane control.	321-20K-485	V1300 - Access Control Panel-RS485 with enclosure with key lock and 16.5 VAC transformer. Firmware 3_71HEX	\$590.00
		321-20K-CLC	V1300 - Access Control Panel-RS485-No cabinet. Firmware X_XX	\$550.00
		321-20K-PK	V1300 - Parking Lane Control -RS485 with enclosure with key lock and 16.5 VAC transformer. Firmware X_XX	\$690.00
	V2300 - Access Control & RFID Panel: Voidex 2-readers RS232 ports, 20000 users memory, DC power supply, transformer and enclosure with Key lock.	322-20K-485	V2300 - Access Control Panel-RS485 with DC power supply, transformer and enclosure with key lock. Firmware X-XX	\$680.00
		322-20K-CLC	V2300 - Access Control Panel-RS485 with DC power supply, transformer and enclosure with key lock. Firmware X-XX	\$630.00
		322-20K-485RF	V2300 - RFID Control Panel-RS485 with DC power supply, transformer and enclosure with key lock. Firmware X-XX	\$760.00
	V16OUT - Expansion Board for V1300 & V2300 with 16 relay N/O (Form B).	331-16-OUT	V16OUT - Expansion Board for V1300/V2300 with 16 relay N/O (Form B) outputs.	\$440.00
ID DEVICES				
	Legacy Readers & Cards	201-BCS	Bar code swipe reader - Black. Generic Format.	\$399.00
		201-BCA	Bar code swipe reader - Black. AMTEL Format.	\$399.00
		201-BCC	Bar code swipe reader - Black. Generic Custom Format.	\$399.00
		202-BC	Bar code card - Black - Indoor or Outdoor use	\$2.20
		211-WG	Wiegand Swipe Reader with terminal connection - Black	\$295.00
		212-WG	Wiegand Cards - AMTEL print with ID number - HOT STAMPED	\$4.60
		273-MS	Magnetic Stripe Card Reader - Black	\$190.00
		271-MS	Magnetic Stripe Cards - AMTEL Standard Print with ID code	\$2.20
		221-AMT-STD	Proximity Reader Star standard wiegand 26 bits	
		222-AMT-STD	Proximity Card Star standard wiegand 26 bits	
	Legacy RFID Readers & Cards	251-MF	RF-ID Wavetrend reader with omni directional antenna. Adjustable read range up to 200 feet. RS-232 output.	\$790.00
		252-MF-WG	Wiegand Interface for RF-ID reader.	\$258.00
		252-MF1	Standard type tag , gray, with lithium battery	\$28.00
		252-MF2	Domino type tag gray with lithium battery	\$26.00
		252-MF3	Metal type tag gray with lithium battery	\$48.00
	Legacy Biometric Readers	232-RSI-HKII	IR Hand geometry reader with memory for 512 users	\$2,499.00
		232-AMT-FPRG	Star fingerprint reader and registration terminal with built-in proximity reader	\$1,390.00
		232-AMT-FP07	Star fingerprint reader , built-in proximity reader and 720 users memory.	\$980.00
		232-BIO-VPRX	Bioscrypt Fingerprint Reader with built-in HID proximity reader and 4000 users memory.	\$1,698.00
		232-BIO-PASS	Bioscrypt Fingerprint Reader for only finger print validation without cards or codes (500 users).	\$1,698.00
	AMLASER Bar code scanner and Decals	241-AML-BC	Laser Scanner - Aluminum Enclosure - Wiegand Output (requires mounting hardware).	\$6,490.00
		242-SA	White on Black Bar Coded Labels standard format	\$3.20
		242-SS	White on Black Bar Coded Labels AMTEL format	\$3.20
VIDEO DEVICES				
	Video Cameras -	340-VID-CAM	USB Digital Video Camera and for use with ID & Visitor Systems.	\$190.00
		340-VID-USB	USB Video converter for use with standard CCTV cameras.	\$190.00

Picture	Description	Part No.	Options	MRSP. \$
		340-VID-CCV	CCTV professional camera high resolution, color, low light sensitivity with varifocal autoiris lens in outdoor housing and mounting support.	\$690.00
LEGACY PARKING SOFTWARE & EQUIPMENT				
	AMPARK Parking & Revenue Control Manager Software: Supports one lane IN and one lane OUT Parking Lot with flexible fee structure, multiple discount definition, on-line monitoring, ticket issuing for transient parkers, card access for frequent parkers and Windows network operation. Compatible with Ticket Machines and Exit Cashiers based on Voidex panels. Ver 8.5.X	431-APK	AMPARK Parking & Revenue Control Manager Software: Supports one lane IN and one lane OUT Parking Lot with flexible fee structure, multiple discount definition, on-line monitoring and Windows network operation. (PC by others).	\$999.00
		431-EXP	AMPARK Software expansion: Required for each additional IN or OUT lane in a parking automation system.	\$299.00
	Self Park Ticket Dispenser: Based on Voidex lane controller prints in real time, date, time and lane number, in characters and barcode or magstripe encoding. Request for ticket button, LCD display, arming loop detector, and lot full control with online communication port.	512-OLBC	Bar Code Ticket Dispenser with LCD display, request for ticket button, arming loop detector and Voidex lane control panel with online communication port RS-485.	\$6,490.00
		512-OLMS	Mag Stripe Ticket Dispenser with LCD display, request for ticket button, arming loop detector and Voidex lane control panel with online communication port RS-485.	\$7,750.00
	Parking Tickets	520-M-5K	Mag Stripe Tickets	\$140.00
		520-B	Bar Code rolls	\$18.00
ACCESSORIES				
		311-PWR	DC 1A Power Supply for Access Control panels	\$90.00
		331-NP127	NP127 Rechargeable Battery for access control panels	\$29.00
		331-485-EXT	RS-485 Extender Module	\$249.00
		331-485-PC	Long distance (RS485) interface with enclosure for computer connection	\$110.00
		331-LCD	Display module (LCD) attachment for One port and two port panels.	\$210.00
		332-DIAL-A	Dial up modem 9600 baud	\$210.00
		332-DIAL-E	Dial up external modem for connection to computer	\$230.00
		332-FIBER	Fiber Optic Line Driver (To be used with fiber optic cable)	\$790.00
		351-BRC-RFID	Universal Mounting bracket for RFID 2100 controller	\$90.00
